

MARCH BACK TO THE MILLS

WORKERS THE COUNTRY OVER
AT THEIR JOBS AGAIN.

Unmistakable Signs of Revival in Connecticut—More Work at Higher Pay in New Orleans—Alabama Furnaces to Start Up—Orders Are Increasing.

NEW HAVEN, Conn., Nov. 7.—There are unmistakable signs of business activity all over Connecticut since Taft was elected. A canvass of the large mills along the Naugatuck Valley up to Waterbury showed that some of the larger shops had already increased their forces and were looking forward to a busy winter.

In New Britain, Hartford, New Hartford and the smaller up-State towns, where the business of the woolen and silk mills provides thousands with work, the same sentiment prevails and already an improvement in demand has been shown.

On the New Haven road, no doubt the largest employer of labor in this State, the increased operation of the factories naturally results in a greater demand for railroad workmen. As an example the company this morning started its big Newville repair department on a full schedule of six days a week. About 1,800 men will be benefited by this change. It is expected that the railroad offices here to date are "repair shops" here would not be put on full time for the present, but in addition an officer of high standing said that New Haven Railroad employees would not doubt shortly share in this revival of business activity.

An officer of the New Haven Clock Company said to-day that the concern expected increased orders and that if the improvement continues the working force would have to be increased. The shop is working now on full time.

CORRADO, Nov. 7.—President E. T. Bedford of the Corn Products Refining Company, who was in Chicago to-day looking after details concerning the building of the large new plant at Summit, Ill., said that with the election out of the way there was every reason to expect better times.

"I believe the election of Mr. Taft means for better business," said Mr. Bedford, "but to me it does not mean the lessening of the present Administration's high ideals, but the carrying of them out in a more moderate form. The prosperity of this country is so interwoven with the great corporations that they cannot be injured without everybody being hurt."

For the first time in many months the bank clearings in Chicago last week showed an increase over the same period of the previous year. The gain was due to the sharp slump in the first week in November last year.

PITTSBURGH, Nov. 7.—The Republic Iron and Steel Company announced to-day that on Monday it would start 100 per cent. of its furnace capacity in the Birmingham (Ala.) district. Orders have been issued for the blowing in of furnace No. 1 in the Republic district. The company has three big furnaces at Birmingham and this will be the first time in years that all have been in operation at once.

It is expected that the New York Central railroad will place an order for 1,000 cars in the Pittsburgh district early next week. The order has been hanging in the air some time. Vice-President A. M. Schoenmaker, in charge of the Pittsburgh district, has been called to New York to consult on the matter.

A coal deal which had been hanging in the air since before the Presidential election was closed to-day when J. V. Thompson paid \$500,000 for 2,500 acres of undeveloped land in Greene county, Pa., and in part of the intention of Mr. Thompson to build a new coal mine and open a new coke field at once.

NEW ORLEANS, Nov. 7.—The only industry in New Orleans to raise wages in consequence of the election of Taft is the Textile Company, which controls the two big cotton factories of this city and has 1,500 persons at work. A reduction in the wages was made some time ago, and a large number of the employees left, and the mills reduced their output. Two days after the election of Taft wages were raised 20 per cent. and all the hands went back to work. The increase applies also to Wesson Mills, at Wesson, Miss., which is controlled by the Textile Company.

The election had more immediate effect on the matter of bringing in money to New Orleans for investment, this being due in part to the greater confidence resulting from the election of Mr. Taft and in part to the adoption of a constitutional amendment exempting from taxation money advanced on mortgages.

This has resulted already in the investment of more than \$500,000 in Louisiana mortgages, of which \$100,000 goes to the erection of the big Audubon Building. Another loan was made by a New York life insurance company to the city for constructing schools. These loans served to relieve the money situation here, money being scarce and tight.

NEWBURGH, N. Y., Nov. 7.—The managers of Sweet, Orr & Co.'s large works, the Coldwell-Lawn Mower Company, the Strook Plush Mills, the Thomas S. Starvel Shipbuilding Company, the Brookfield Felt Mills, the Cleveland and Whitehill Company's factory, the Newburgh Ice Machine and Engine Company, the Coldwell-Wilcox Company's metal working plant and other large establishments here say in interviews to-day that the election of Taft has already shown a great improvement. New and large orders have been received and plants hereafter on short time will now be put on full time.

LOANPORT, Ind., Nov. 7.—Several months before the election, W. W. Williams of the Western Motor Works of this city gave out a statement to the effect that he had received an order for \$100,000 worth of motor engines from a big automobile corporation in the East, and that he would start the new factory for the production of Taft's election. Word was received at the Western Motor Works to proceed with the order and turn out the motors as fast as possible.

RICHMOND, Nov. 7.—It was announced to-day that the Virginian Railroad had ordered nineteen locomotives of the latest model from the Richmond branch of the American Locomotive Company.

This will necessitate the operation of the plant, so long practically idle, at full blast for months to come. This announcement has created a stir among the hundreds of employees of the plant, who have been idle for many weeks.

FREDERICKSBURG, Nov. 7.—The reduction of work in the Frederickburg shirt factory the first of the week, resultant upon rush orders received just after the election.

EAST LIVERPOOL, Ohio, Nov. 7.—As a result of the election the seven kiln pottery at Derry, Pa., owned by the Wesson China Company of this city, has been sold and will be put in immediate operation. The pottery has been idle about eighteen months. The new owner is the Pittsburgh High Voltage Insulator Company, which was recently formed with G. F. Young as president and L. M. Bender secretary-treasurer.

MOUNT VERNON, Ill., Nov. 7.—Rapidly increasing business has compelled the Chicago and Eastern Illinois and Louisville and Nashville railroads to reinstate yard crews and switch engines which have been idle all summer.

Harvester Company and other companies. Orders are coming in to all of the plants. A big shipment of mowers and rakes was started to-day from the Champion division of the International and more are to follow. The company anticipates a heavy foreign trade. Fifteen hundred men are at work now and more are being put on. President C. F. McGilvray of the Robbins and Myers company says the outlook is for the biggest year in the history of their plant.

UMBERLAND, Md., Nov. 7.—The Meadow River Lumber Company and the Meadow River Coal and Land Company, with a combined capital of \$2,000,000 and controlled by the same interests, are arranging to develop 300,000,000 feet of hardwood lumber at Evenwood, W. Va., where a town will be established. The company is building a twenty mile railroad from Meadow Creek Junction to the tract, which includes 24,000 acres of New River Pocomoke Coal and mineral rights on 8,000 acres.

The Luella Coal and Coke Company has commenced the development of 700 acres of coal land in Tygart's Valley, near Philippi, W. Va. The Midland Coal and Coke Company has fired its ovens in the same locality. The Overholt Coal and Coke Company, in Tygart's Valley, is erecting a tipples and modern coal plant at Cecil. A bridge will be built over Tygart's Valley River.

MORE WORK IN NEW JERSEY.

Factories in Hudson County Taking Discharged Employees Back.

Inquiry among concerns engaged in various lines of trade in Hudson county, N. J., yesterday indicated that business is increasing and that more workers are being employed in the factories. A representative of the New York Standard Watch Company, which has a force of 375 men and women at work in its large plant at Communipaw avenue and Woodward street, Jersey City, said that the company expects to increase the number to 500 in the near future.

"We had a number of orders contingent on the election of Taft," he said. "A lot of employees had been dropped out of the various departments when things were dull and we are now taking back the old hands so far as it is possible."

Andrew J. Corcoran, Incorporated, manufacturer of windmills and tanks, in Jersey avenue, Jersey City, find that its tank business is picking up. "We received a large windmill order from the State of Connecticut," said a representative of the concern yesterday, "which was contingent on the way the election turned out. There were also some smaller orders which would have been stopped if the result of the election had been different. Our tank business seems to be picking up and we are going to take on twelve additional hands at once. By Christmas we expect to have our full working force."

The Spaulding-Jennings Company, a subsidiary concern of the Crucible Steel Company of America, has taken on twelve additional hands at its plant at the foot of Grant avenue, Jersey City, since the election. It was announced at the company's office yesterday that as a result of the improvement in business conditions the company expects soon to work overtime at the rate of fourteen or fifteen hours a day instead of ten hours a day as at present.

William F. Brown, secretary of the Dodge & Bliss Company, Jersey City lumber dealer and packing box manufacturer, said: "We see quite a little improvement in the way inquiries are being made and the way orders are coming in. Business is undoubtedly picking up in building lines and the packing box trade. We had one or two orders contingent on the result of the election. We have the largest packing box factory east of Chicago and we are now running on practically full time. The volume of business is increasing and the signs for the future are very encouraging. We are Democrats, but voted for Taft."

Isaac P. Vanderbeek, senior member of Vanderbeek & Sons, lumber dealers in Greene street, Jersey City, said: "Where we were working on short time we are now working on full time."

James Chadwick & Bros., makers of pool cotton yarn, at the foot of Danforth avenue, Jersey City, has resumed full time. The concern has been running on short time since last spring. It employs 200 hands.

BROUGHT 1,052 IMMIGRANTS.

Kaiserlin Has the Biggest Shipment Since Last Winter's Outflow.

The Hamburg-American liner Kaiserlin Auguste Victoria, in yesterday from Hamburg, Southampton and Cherbourg, brought 1,052 immigrants, who apparently seemed returning American prosperity from afar. This is the largest number of steerage passengers that has arrived in a single ship in a year, or since the beginning of the great exodus of foreign labor following the business depression. Among the Kaiserlin's passengers were Jerome N. Bonaparte, Prince Andre Poniatowski, Isaac N. Seligman, Mme. Frieda Langendorf, contralto, and Mme. Leonora Sparks, lyric soprano, both of whom will sing in concert; G. H. Powell, Charles W. Biddle, Mrs. Samuel Newhouse, Baron Edgar von Schroeder, George W. Sheldon, the Viscount and Viscountess de Tristram and Baron von Uexkull.

Mrs. Silas C. McFarland brought the ashes of her husband, American Consul at St. Gall, who killed himself on a train between Hamburg and Berlin on October 24.

Decrease of 15,000 in Idle Cars.

The total number of idle freight cars on October 30, according to the bulletin of the American Railway Association, was 110,912 as compared with 115,038 on October 14. Cars in shop show a decrease of 14,000, so that the actual improvement is about 18,000. New England roads show a slight decrease in the number of cars in service, but there is reported an increase in the Northwest and a decided improvement in New York and New Jersey, Pennsylvania, Ohio and Indiana.

WM. LOEB, JR., TO BE AN EDITOR.

He Receives an Offer, It Is Reported, From the St. Paul "Dispatch."

WASHINGTON, Nov. 7.—The latest report concerning the future of William Loeb, Jr., secretary to the President, places him in an editorial chair in St. Paul, Minn. That some sort of an offer has come to him from the St. Paul Dispatch is an accepted fact among his friends, some of whom said to-day that the secretary made the comment in connection with the St. Paul offer: "It looks good to me."

Two Bank Officers Found Guilty.

PITTSBURGH, Nov. 7.—John M. McKee, former president, and William O. McKee, former director, of the wrecked First National Bank of Clintonville were found guilty on five out of six counts to-day in the United States District Court.

MANY CALLERS ON MORSE

TOMBS PRISONER SEES FAMILY AND FRIENDS.

One Visitor Says for Morse That the Latter Was Placed at Curtis's Escape—Circuit Court of Appeals Will Hear Argument on Bail on Monday.

Charles W. Morse had a busy day in the Tombs. Visitors distributed their calls over most of the day. They were enabled to do so inasmuch as by permission of Marshal Henkel Mrs. Morse and one of Mr. Morse's sons were allowed to see the prisoner at hours other than those regularly allotted to visitors. One of his callers said that Morse was glad that Curtis had been freed and had said so.

As to the condition of Morse himself, Charles E. Littlefield, the former Maine Congressman, who had been one of his counsel, said that he was in first rate condition and looked it. Mr. Morse did not, he said, look as if he were celebrating the Fourth of July, but as that could scarcely be expected his appearance was well up to the mark. When somebody asked the Congressman if Morse approved the verdict as regarded himself he said that he rather thought Morse believed it should have been the opposite.

Other callers were Eugene Carver of Boston, A. P. Gorham and A. M. Best, all of counsel to Mr. Morse; Mrs. Morse, Ben Morse, Harry Morse, Miss Jennie B. Morse, Mr. Morse's sister, and G. A. Peavey.

Mrs. Morse remained for nearly two hours. She and her sons brought some clothing and conveniences to Mr. Morse. Morse partook of the Tombs fare at early breakfast time, but did not like it so well but that he later sent to the Tombs caterer for other things. He declined to send out for food. What he gets outside the prison fare from the caterer he pays for, as he would have to do if he sent outside for his meals.

The jailers say that with his customary coolness he takes the prison routine as calmly as an old prisoner. None of Mr. Morse's callers brought any word from the prisoner nor did Morse himself care to send any message to the public which has shown such an interest in him. Mr. Morse's counsel came to see him about.

There can be only speculation as to the outcome of the application for bail which the United States Circuit Court of Appeals is to hear to-morrow afternoon. It has been customary for the trial judge to admit to bail, and when a trial judge refuses to do so no other Circuit Court judge as such will interfere in a case where his brother of the bench has passed judgment.

The Circuit Court of Appeals has power to admit to bail, and it has been done; but whether this court will take the view that as the trial judge declined to admit to bail it also will not interfere nobody would guess yesterday. While as a rule a prisoner in these circumstances is allowed out on his pending his appeal, it was suggested wholly unofficially yesterday that inasmuch as Morse is under other indictments as well as under a heavy sentence, especially for a man 32 years old, and inasmuch as he has hastily and secretly departed for Europe at the time when it was generally known that indictments were imminent, the United States District Attorney may put up strong arguments before the Court of Appeals to-morrow against the admission of the prisoner to bail. In that case he would rest in the Tombs, probably until the appeal is argued. If the higher court grants bail Morse may be released Monday or Tuesday if he can get bail, as no one doubts he can. In that case he would be free pending the same court's judgment on the appeal from the judgment of the trial court.

Mr. Curtis went out of town with his wife for a few days rest after the long and severe ordeal of the trial.

Saltus-Cutler.

MORRISTOWN, N. J., Nov. 7.—Owing to the recent death of the bride's grandmother the wedding this afternoon of Miss Julia Hinchman Cutler, daughter of Mr. and Mrs. Willard W. Cutler, to John Love Saltus of Brooklyn was attended only by the families and intimate friends. The ceremony was performed in the South Street Presbyterian Church by the Rev. Alexander Macdonald, assisted by the Rev. Frederick W. Cutler, an uncle of the bride.

The bride's sister, Miss Ethel Cutler, was maid of honor and another sister, Miss Edith Cutler, was the first bridesmaid. The other bridesmaids were Miss Anna Saltus, Miss Mary Cutler, Miss George Low and Miss Sophie Langdon of Morristown and Miss Elizabeth Hackstaff of New York. Robert Saltus, brother of the bride's best man, and the ushers were Leon Freeman of Morristown, Ward Carroll of Brooklyn, Edward W. Dutser, Harold Stanwood and Herbert Atwood of New York and Willard W. Cutler, Jr., a brother of the bride.

Gardner-Sterling.

TRENTON, N. J., Nov. 7.—Miss Sarah E. Sterling, daughter of Mr. and Mrs. Edward B. Sterling of this city, was married to-day to G. Clinton Gardner of Washington, D. C. The ceremony was performed by the Rev. Francis Palmer, pastor of the Prospect Street Presbyterian Church.

Miss Mary Gardner of New York, sister of the bridegroom, was the bride's attendant and Dr. Edward B. Finch of New York, a brother-in-law of Mr. Gardner, acted as best man.

The bridegroom, who is connected with the Bell Telephone Company of the Pennsylvania Railroad, is a son of the late G. Clinton Gardner, and grandson of the late George H. Broadhead, former president of the New York Stock Exchange, also a grandson of the late Charles K. Gardner, Postmaster-General in President Lincoln's Cabinet.
